

## Pier parking requirements

- Parking is not required in the C2 district (HWY 17 to Poplar Dr., 4<sup>th</sup> ave. S. to Pine Dr.).
- Current ordinance require that the pier have 84 parking spaces Using the Less restrictive 80% rule with two one story buildings. There are only 59 spaces, therefore it is not in compliance.
- Adding a third building and a second story on all buildings would require an additional 154 additional parking spaces.
- When the pier is permitted for building permit it will require the additional parking to comply with the requirements in the ordinance this would result in 208 parking spaces total just for the pier, we have 59. The town would need an additional 149 spaces.
- If the town doesn't relax the parking regulation before constructing the pier, the town will be in violation of its own parking ordinance.
- Town parking capacity in the paid parking average capacity between 5pm and 7pm, only is reflected because there is no enforcement after 7pm. It is an option to extend the enforcement to later in the evening.
  - 2017 for the most part was slow compared to prior years.
  - March only at 10% daily average capacity
  - April only at 24% daily average capacity
  - May only at 22% daily average capacity
  - June only at 57% daily average capacity
  - July only at 93% daily average capacity
  - August only at 43% daily average capacity
  - September only at 24% daily average capacity
  - October only at 15% daily average capacity
- There are currently 375 + parking spaces in the area. The proposed language only allows for the potential loss of 28 parking spaces out of the 375 spaces. Should a property owner want to develop any of these lots they would have to keep the current spaces and the construction in this area would require the structure to be elevated out of the flood zone. Therefore, the space underneath would be used for parking.
- The proposed language for existing parking: *Any lot containing parking areas for existing businesses that does not have a structure relinquishes the right to develop the area devoted to parking until such time as parking is provided elsewhere by the business/property owner. The required off-street spaces may be located and maintained on an adjacent property not to exceed four hundred (400) feet from the lot or use served.*

### Change in type of business potential revenue

An office building changing to a restaurant, the town could collect more revenue in business license, property tax and hospitality. For example, hospitality could result in \$20,000 for a restaurant doing \$2M in revenue.

### Change the ordinance for Outdoor Cafes to include the E district
